

How To Plug Into Solar Power

Monday, 11 May 2009

Last Updated Monday, 11 May 2009

Wantage Area Climate Action Group is hosting a FREE event on "Domestic Solar Energy" at the Vale and Downland museum on Thursday May 14th at 7.00 pm. The presenter is Chris Jardine from Oxford University Environmental Change Unit. Chris has long experience of research into solar photovoltaic and solar thermal panels on a wider range of buildings, and will talk about both the practical design and economics of systems. Advanced booking is not essential, but to be sure of a place, please send an e-mail to info@wacagroup.com.
