

## Conserve hot water

Sunday, 21 September 2008

Last Updated Tuesday, 23 September 2008

Immediate actions - no cost

- Have a shower instead of a bath.
- How much time do you spend in the shower &ndash; could you reduce this by say 10%?
- If you do have a bath, share the water with a friend.
- When you have a bath &ndash; no more than 4&rdquo;
- Run the dishwasher or washing machine at full load&hellip;and run them on economy settings.
- Do you need to wash your clothes as often &ndash; could they go a bit longer before they&rsquo;re washed?
- If your tank isn&rsquo;t spray insulated with foam, fit a jacket to it.
- Reduce the temperature of stored water to the minimum that is safe (XXC)Small changes - medium cost

- Fit a low flow shower head that traps air to make it feel like a more powerful one.
- Could you live without your power shower?
